Overview

Getting Started

Prerequisites

This project requires the following dependencies:

- **Programming Language:** JavaScript
- **Package Manager:** Npm

Installation

Build landing-page from the source and install dependencies:

1. **Clone the repository:**

   ```
   ❯ git clone https://github.com/shivamgaur1844/landing-page
   ```

2. **Navigate to the project directory:**

   ```
   ❯ cd landing-page
   ```

3. **Install the dependencies:**

Using [npm](#):

```
> npm install
```

Usage

Run the project with:

Using [npm](#):

```
npm start
```

Testing

Landing-page uses the {**test_framework**} test framework. Run the test suite with:

Using [npm](#):

```
npm test
```
